

NEW

Accessories for Standard Doors

Automatic lighting

New to the Standard Sliding Door range, is our automatic lighting system. This lighting system slots between the ceiling and top track, and automatically turns on and off when you open and close your sliding doors. Easy to fit, just simply plug and play.

Please Note: The lights work independently, but if you want them to automatically turn on when opening your doors then you will need a Infra-red control box.

(Please Note: You will need 1 Infra-red fitting for every light pack purchased).

Kids chalk sliding doors...
Introducing a Playful answer for a practical Storage solution.
 Let your kids go mad with these full sized standard doors, entirely made from chalk board, creating a little bit more fun for any child's room.

- Available door widths are W610mm
- Maximum opening width 3607mm
- Maximum opening height 2260mm

Don't forget to order!

Track sets

Track sets are available in both Silver and White, and will need to be cut to size to fit your opening space (this can be done using a standard hacksaw).

Lengths available:
1193 - 1803mm

1804 - 2692mm

2693 - 3607mm

What else may you need?

Accessories

If your ceiling height is over 2260mm you'll need to reduce the height by adding a top panel or gap filler. Spacer Blocks, Opening Height Reducer and Fixing Blocks can be used to secure MDF or plasterboard in the excess space to either the side of the opening or above.

Please note: If your opening gap is greater than 127mm then use the 'Opening Height Reducer'. If this is less than 127mm then use the 'Spacer Blocks'. To add an end/side panel, fix this using the 'Fixing Blocks'.

Spacer Blocks (pack of 10)

Fixing Blocks (pack of 10)
