WHY CHOOSE SLIDING DOORS & MODULAR STORAGE?

Designed around you and your room, our sliding doors and storage systems not only ensure you get the maximum use out of your space, but come with a huge range of designs and finishes so that you can achieve a look that is truly personal to you.

THE PERFECT FIT

Sliding doors that fit any space from 1.15 - 2.48m high and 1.15 - 4.55m wide with a selection of fixed and custom sized doors, plus accessories to fit them.

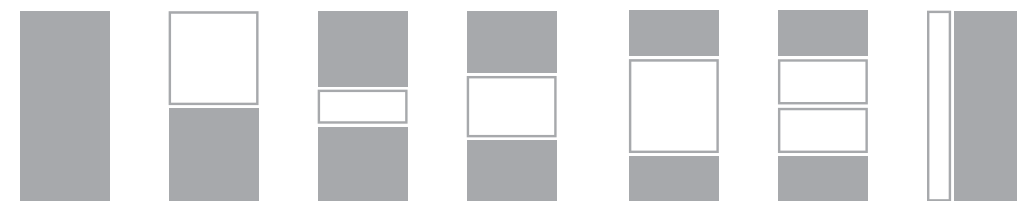

ADAPT YOUR STORAGE

Add, swap and adapt your storage as many times as you desire to suit your lifestyle and needs.

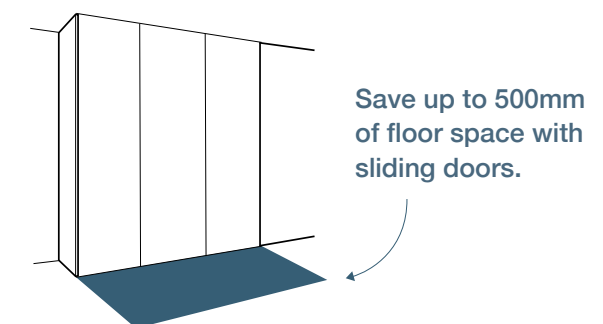

PERSONALISE

Personalise your doors with endless configurations and colours to choose from.

MAXIMISE YOUR SPACE

Save up to 500mm of floor space in front of your sliding wardrobes. With sliding doors, you don't need to allow any space in front of the wardrobe that you typically would for a hinged wardrobe.

TRANSFORM YOUR SPACE

With any hinged wardrobe, a lot of space is wasted in front, on the sides and above the actual wardrobe. Our floor to ceiling designs and modular interior solutions allow you to make use of every inch of space... without any unsightly clutter!

LOUNGE

Storage systems that are not only stylish but functional too. Turn unused areas into a handy office space!

LOFT

Reclaim the space lost to pitched roofs. Make any loft space just as stunning (and functional) as the rest of your home.

HALLWAY

Use our sliding doors to cover all of your hallway clutter.

OFFICE

With our Relax storage system, you can make even the most awkward spaces usable.

BEDROOM

Bring that touch of luxury into your bedroom. Why not create your own walk-in wardrobe?

KITCHEN / UTILITY

Our storage systems can be used anywhere around the home to help you organise your home.

SOLUTIONS FOR EVERY ROOM

Get creative – our doors and storage systems are not only for the bedroom! Hide away boots and coats in the hallway, turn awkward spaces into a home office, transform the eaves in your attic into useful storage or even add a bit of luxury with your very own walk in wardrobe!

UNDER STAIRS

Transform unused areas to create extra storage and work space

Shown here: Relay interior in Gray Textile

HOME OFFICE

Create stunning work spaces with our modular storage systems, that can be adapted and changed at any time to suit your needs.

LOFT

Our stanchions can be trimmed to any size to fit even the most smallest of spaces.

WALK-IN WARDROBE

Whether it's a small wardrobe or walk-in closet, our storage systems can be built for any space.

WARDROBE INTERIOR

Our storage systems work well both behind sliding doors or as a stylish stand alone piece of furniture.

TRANSFORM YOUR STORAGE

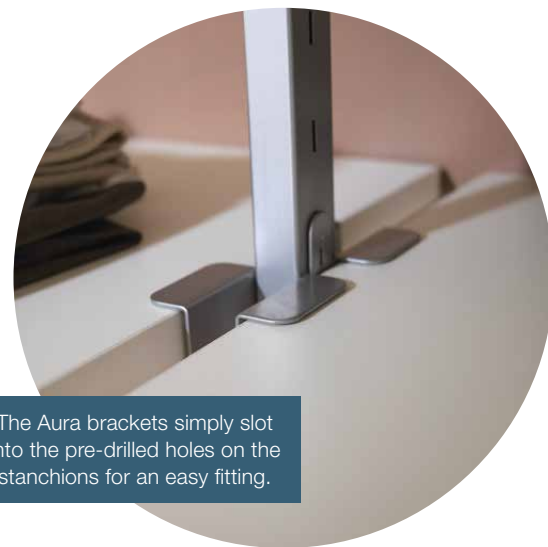

Wasted space can be a thing of the past when using our modular storage systems to maximise unused areas around the home. With a range of different storage systems to choose from and a choice of complementary finishes, our selection of furniture will work inside the wardrobe or on full display.

Shown here: Aura interior in White

AURA

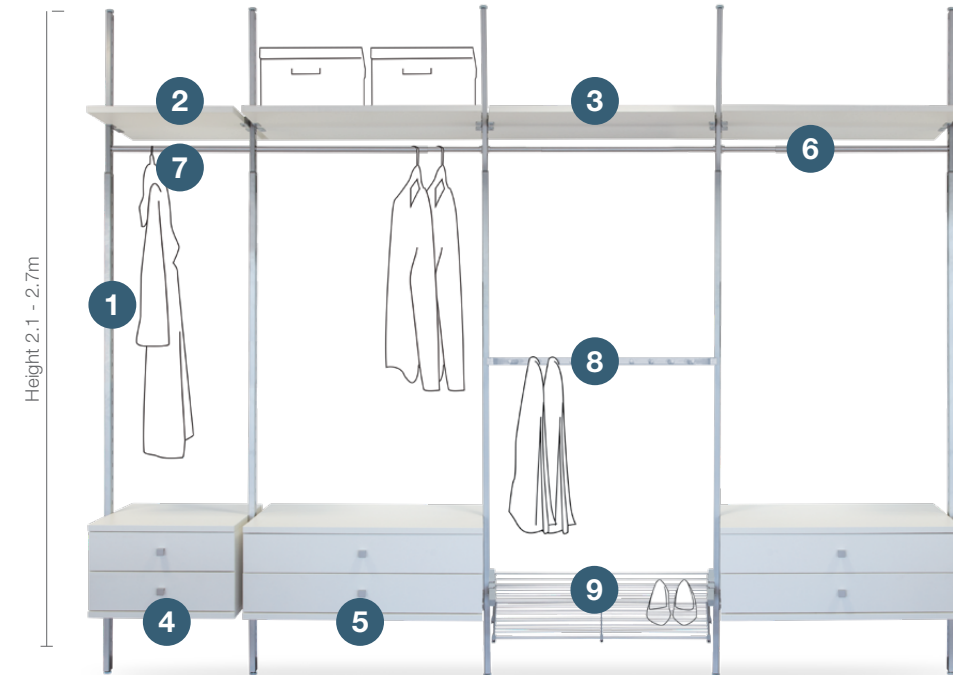

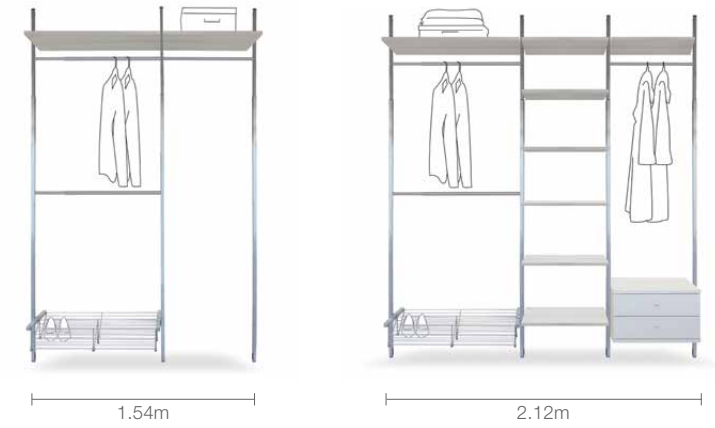

The Aura storage system runs floor to ceiling and can adapt with any lifestyle. Reorganise your storage, add accessories, shoe racks or additional shelving whenever you need.

The Aura brackets simply slot into the pre-drilled holes on the stanchions for an easy fitting.

STORAGE CONFIGURATIONS

The modular accessories can be easily moved around to suit any room. Small, medium or large bedrooms, our modular storage systems adapt around you.

END PANELS & LINERS

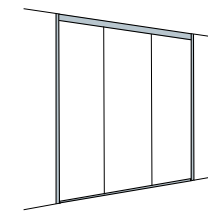

END PANEL:
L2800mm x W620mm x D18mm

End panels are large sections of timber used to create an artificial wall for the doors to run up to. We supply these in various finishes to match your doors.

LINER:
L2800mm x H90mm x D18mm

Our Liners can be used alongside our fitting accessories if you need to reduce your height or if you need to frame your wardrobe doors (creating a square opening).

FINISHES

TRACKSETS

FIXED SIZED TRACKSETS:
Available in: 1803mm, 2692mm & 3606mm

With our fixed sized sliding doors, you will need to purchase the tracksets separately. Our Steel tracksets are now available in matching finishes to compliment your frame choice.

- Choose Trackset A (Colour Matched Steel)**
For Heritage, Classic & Shaker doors.
- Choose Trackset B (Aluminium to match frame)**
For Ellipse, Switch, Reflex & Mirage doors.

STEEL TRACKSET FINISHES

All our custom sized doors come complete with colour matched tracksets.

Shown here: Heritage 3x Single Panel doors. White glass with a Silver frame & Standard Storage interior.

PLANNING YOUR SLIDING DOORS

Now it's time to measure up and choose which doors would best suit your needs and space.

1 MEASURE UP

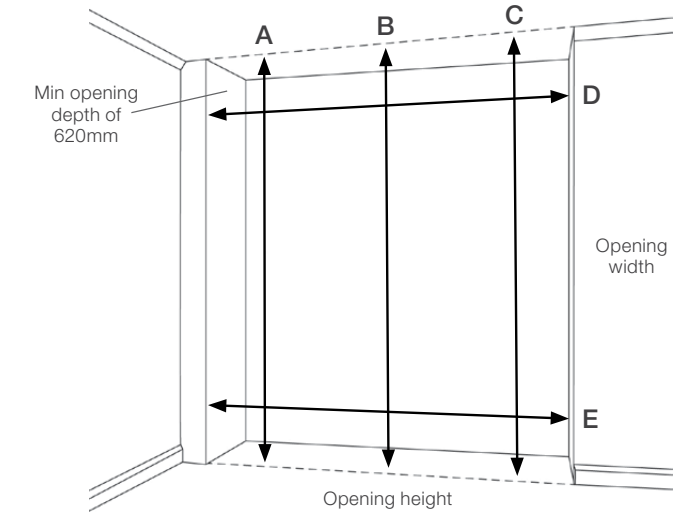

It's really important to prepare your project by measuring up your space, ensuring all doors fit correctly.

Why we need your measurements:

Height – No ceiling and floor are perfectly level, so to ensure our doors fit correctly we need 3 measurements A, B and C. Our doors are made to the smallest height to guarantee the doors slide effortlessly.

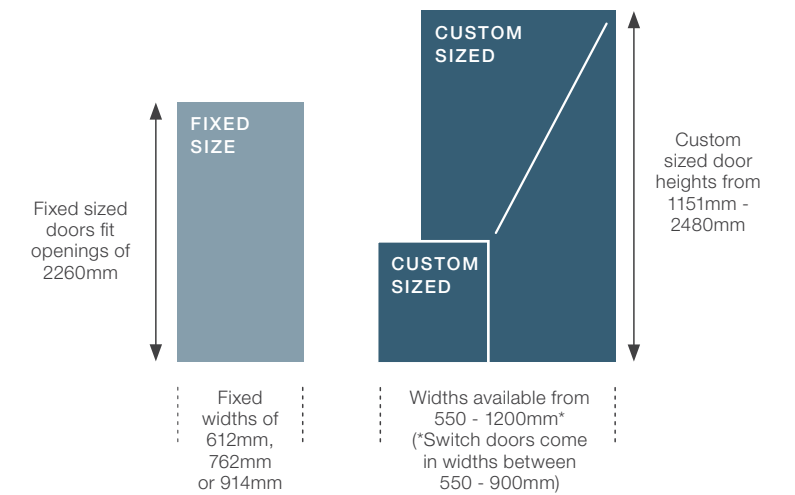

Width – Measure at the top and bottom of your space D and E.

Depth – Our interior systems require a minimum depth of 620mm.

2 IDENTIFY YOUR SPACE

Once you know what space you have to work with, we have two door options to help you achieve your project. Using our fixed or custom sized doors you will be able to maximise your space and organise belongings with ease.

3 CHOOSE FIXED OR CUSTOM SIZED DOORS

	SIZES	FINISHES	SOFT-CLOSE INCLUDED	TRACKSET	FITTING ACCESSORIES	INSTALLATION TIME
FIXED SIZE DOORS	Available in 3 widths 610, 762 & 914mm. Fits height of 2260mm	Selection of finishes	N/A	Sold separately - will need to be cut to size. Silver and White only	If room height is over 2260mm then fitting accessories will be needed	Allow some additional time to cut track sets to size.
CUSTOM SIZED DOORS	Made to fit any opening	Full range of finishes	✓	Included and cut to your opening. Colour matched to frame	Made to fit your opening.	All items are made to fit, so each item can fit right in.

CALCULATE HOW MANY FIXED SIZED DOORS YOU NEED

When buying one of our fixed sized door options you will need to calculate how many doors you need to fit your opening as well as what width of door.

As each of our door frames is different, we have created a simple calculation table to do this.

See page 55 for each door frame dimension.

$$\text{Ideal opening width* for 2 doors} = (2 \times \text{Door width}) - (1 \times \text{Overlap})$$

$$\text{Ideal opening width* for 3 doors} = (3 \times \text{Door width}) - (2 \times \text{Overlaps})$$

$$\text{Ideal opening width* for 4 doors} = (4 \times \text{Door width}) - (2 \times \text{Overlaps})$$

Example: Classic 3 x Door opening (3 x 762mm wide doors = 2286mm) Deduct 70mm for 2 overlaps (Classic frame is 35mm wide) = **2216mm opening width.**

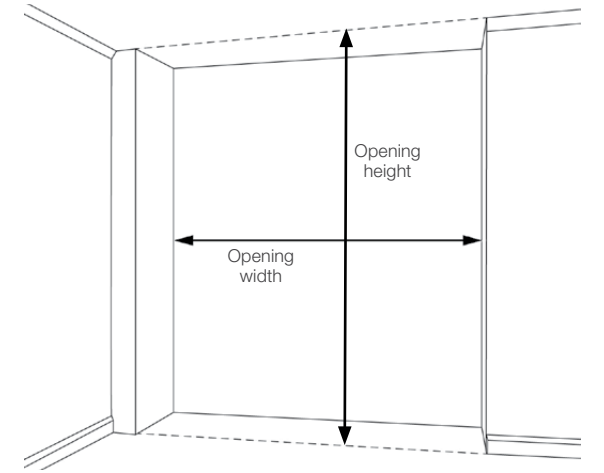

Shown here: Relax interior in Grey Textile.

PLANNING YOUR MODULAR STORAGE

Whether you're planning a standalone interior system or storage behind your sliding doors, use our guide to help you plan the best configuration for your space.

1 MEASURE UP

It's really important to prepare your project by measuring up your space. This will ensure the chosen storage system fits perfectly.

2 CHOOSE YOUR STORAGE SYSTEM

Now you have your measurements, you can start to plan your interior storage solution. Our stanchion based systems can run from floor to ceiling or floor to wall depending on your space and needs.

ALUTEC
Stanchion width **30mm**

For **550mm** accessories.
Width plus 2 stanchions
= **610mm**

For **900mm** accessories.
Width plus 2 stanchions
= **960mm**

AURA
Stanchion width **25mm**

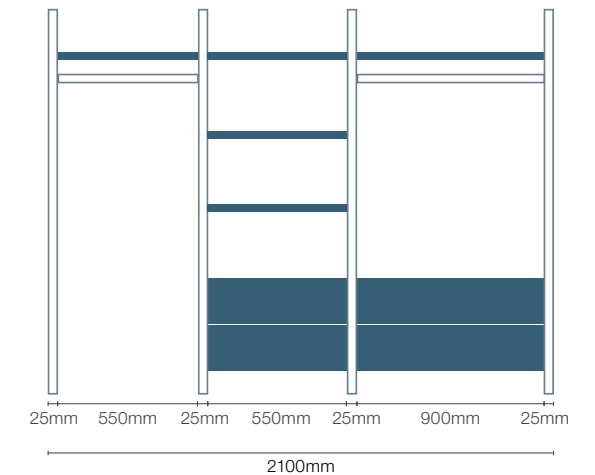

For **550mm** accessories.
Width plus 2 stanchions
= **600mm**

For **900mm** accessories.
Width plus 2 stanchions
= **950mm**

3 PLAN YOUR MODULAR STORAGE

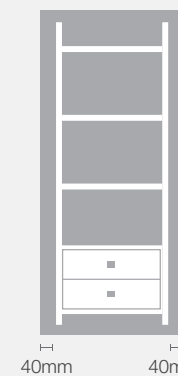

When planning your modular storage interior, start with the first column to the far side of your space, then add on additional columns until you have filled your space.

Most accessories are 550mm or 900mm wide, but we have adjustable components that can be cut to size to fill in that extra space.

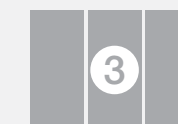

ACCESSORY PLACEMENT & ARRANGEMENT WITH DOORS

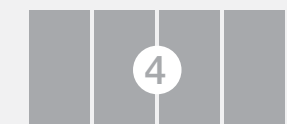

When using any pull out accessory (i.e. drawer units) we recommend making your doors at least 80mm wider than the storage column behind. This gives you plenty of breathing space for the drawers to open without clashing with where the doors cross over.

2 door opening
Position the drawer to the left or right hand side.

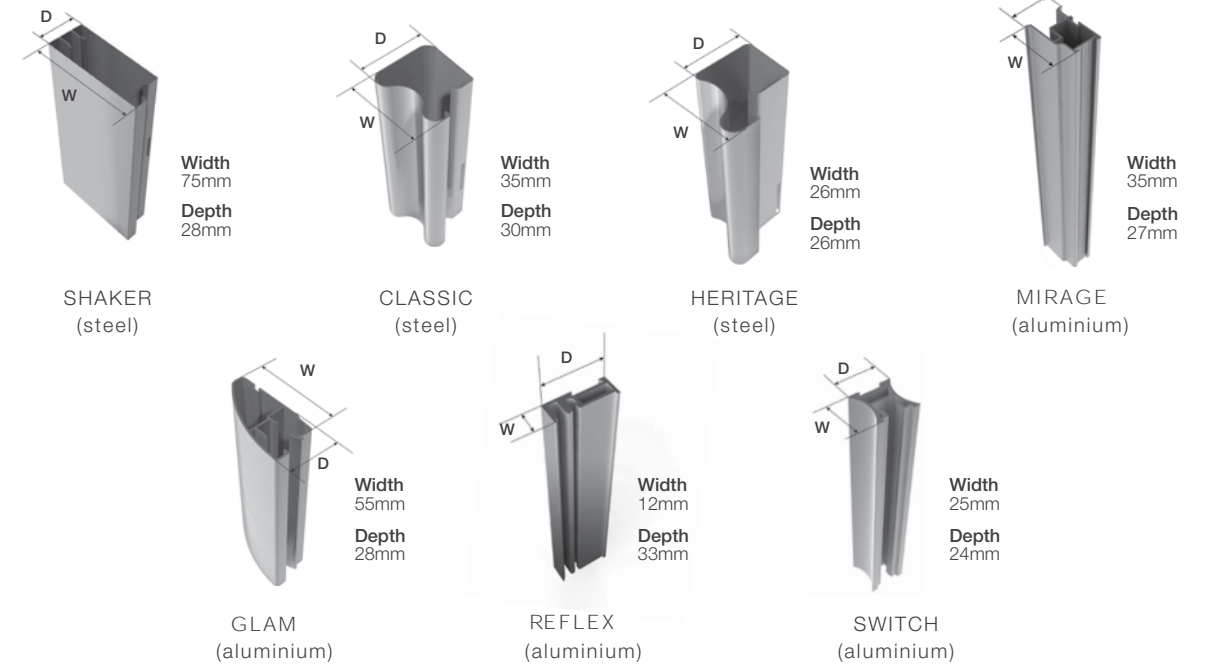

3 door opening
Position the drawers to the left or right hand side.

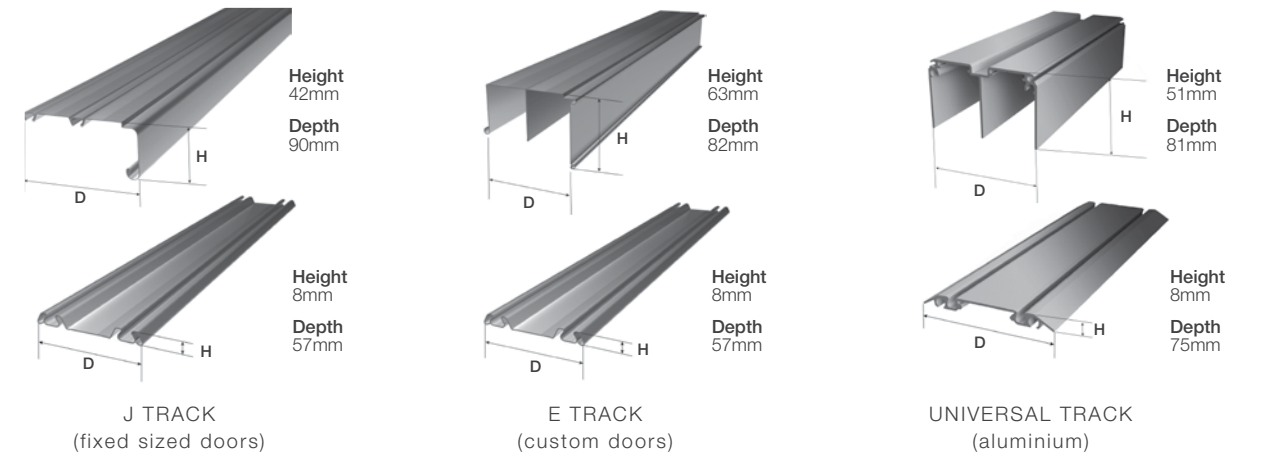

4 door opening
Position the drawers to the far left, middle or right hand side.

FRAME SIZES

TYPES OF TRACK

HOW OUR DOORS FIT

Our doors operate as a 'weight bearing' bottom rolling system with inclusive anti-jump.*
Guides inside the top track ensure the doors run smoothly.

*Anti-jump feature only on our steel doors. The aluminium doors feature our sprung loaded bottom guides.

PRODUCT SPECIFICATION

With different frames, styles and tracks available, take a closer look at how our sliding doors work and operate.
