# SLIDING ROBES DIRECT

SLIDING WARDROBES DELIVERED TO YOUR DOOR

## Made to Measure Sliding Doors & furniture systems

Hand made to your exact size, and with an endless number of configurations to choose from. The Made to Measure Sliding Doors are bespoke, beautiful and are totally in your hands.

## Make use of any space...

All of our made to measure sliding doors are manufactured to your own individual specification, so you can create a truly bespoke designed floor to ceiling & wall to wall storage system.

As well as being able to make made to measure doors fit into a opening space as large as 2500mm high & 4555mm wide, we can also make each individual door as small as 1200mm high & 610mm wide.

One of the largest advantages is that these are totally bespoke, both in size and in colour. These doors also feature the soft-close system on all doors *(except MTM Classic)* above 1200mm high & 650mm wide.

# Glam

## made to measure doors

Made for you...designed by you

The soft curved profile of the glam door is created by using a high grade anodised aluminium frame, which helps make these doors glide effortlessly. Combine any wood or glass panel options to create a classic or contemporary finish from the panel options featured overleaf.

- Made To Measure
- Available in 1, 2, 3 & 4 panel configurations
- 12 different glass panel options & 5 wood effect finishes
- Frame available as Anodised Aluminium
- Minimum door width 610mm
- Maximum door width 1230mm
- Minimum opening height 1200mm
- Maximum opening height 2500mm
- Soft close system as standard

Maximum opening width of **4555mm**  
Maximum opening height of **2500mm**

**Glam 2 panel:** X2 Gris (textured) wood effect  
Also featuring the NEW Automatic lighting system (see pg27)

# Glam

Framed perfectly within a beautifully curved Aluminium frame. This contemporary door style complements any modern room, or office giving it that added luxurious feel.

Now available in a single, 2, 3 or 4 panel option, and with an extensive range of on-trend Core and Premium colours and finishes to choose from, the Glam range is simply stunning and will stand proud in any living space.

# Reflex

## made to measure doors

Made for you....designed by you

The Reflex range is unashamedly Italian influenced and makes a bold statement in any modern home. Rich glass colours add warmth and drama and just ooze luxury. The subtle, brushed aluminium centre strip is deliberately understated, allowing only the glass panels to dominate the design to a breathtaking effect.

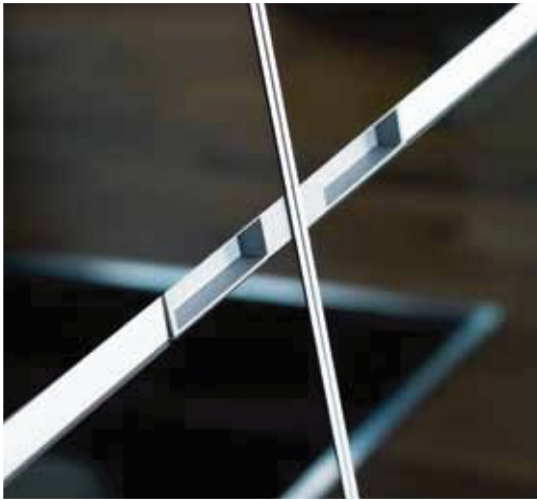

- Made To Measure
- Available in 2 & 4 panel configurations
- 12 different glass panel options & 6 wood effect finishes
- Frame available in Aluminium
- Minimum door width 610mm
- Maximum door width 1180mm
- Minimum opening height 1200mm
- Maximum opening height 2500mm
- Soft close system as standard

Maximum opening width of **4555mm**  
Maximum opening height of **2500mm**

# Reflex

Influenced by Italian designs, The Reflex Door is framed perfectly with a minimal amount of aluminium on show. This design complements any modern living space.

Now available in either a 2 or 4 panel option, and with an extensive range of on-trend Core and Premium colours and finishes to choose from, The Minimalist range is simply stunning and will give any room that extra designer look.

# Shaker

## made to measure doors

Made for you....designed by you

A true example of a modern classic design. The Shaker doors are available in four wood effect frames and designed to epitomise the classic Shaker design. Complement each door with matching wood effect panels or make a bolder statement with contrasting wood or glass panels in any combination.

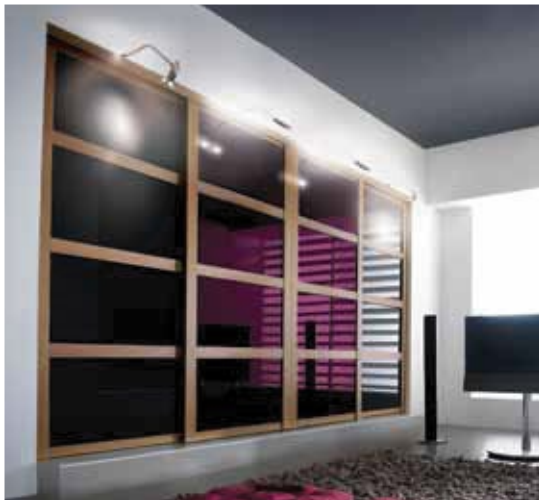

- Made To Measure
- Available in 2, 3 & 4 panel configurations
- 10 different glass panel options & 4 wood effect finishes
- Frame available in silver or matching wood effect options
- Minimum door width 610mm
- Maximum door width 1160mm
- Minimum opening height 1200mm
- Maximum opening height 2500mm
- Soft close system as standard

Maximum opening width of **4555mm**  
Maximum opening height of **2500mm**

# Shaker

Choose from our Walnut, Windsor Oak, Ferrara Oak, Maple or Silver frames. Either complement with matching wood effect panels or make a bolder statement by combining contrasting wood effects and glass panels together.

Now available in either a 2, 3 or 4 panel option, and with an extensive range of on-trend Core and Premium colours and finishes to choose from, the Shaker range is simply stunning and does justice to a modern day classic.

## Making use of any space

Maximise any space, and create jaw dropping features in any room by installing the bespoke made to measure sliding doors.

One of the biggest advantage of made to measure is that they are totally bespoke, so you're in total control and the final product will be to your individual style and requirements.

As well as being able to hand make these doors fit into an opening space as tall as 2500mm high & as wide as 4555mm wide, we can also make each individual door as small as 1200mm high & 610mm wide.

**NB:** All doors feature the new soft-close system as standard, when above 1200mm high and 650mm wide.

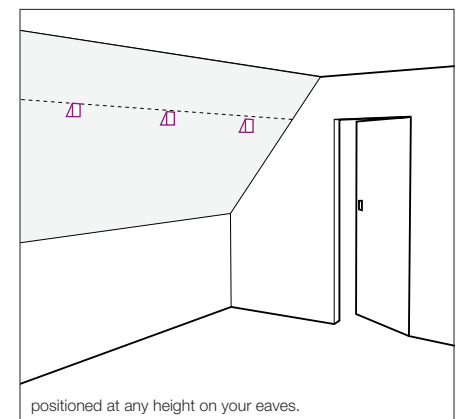

## Accessories for MTM Doors

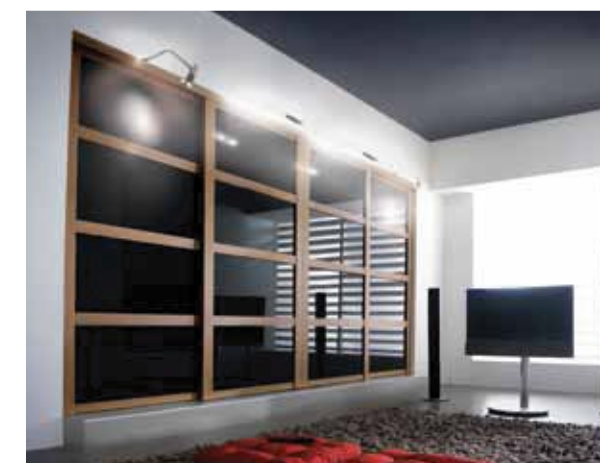

### Angled Ceiling Bracket

NEW to the made-to-measure range, and adding additional flexibility when coming to utilising any space in your home. The NEW angled ceiling bracket will allow you to fit your doors onto any sloping ceiling, perfect for installing the doors onto eaves in your attic space.

### Automatic lighting

New to the made to measure sliding door range, is our automatic lighting system. This lighting system slots between the ceiling and top track, and automatically turns on and off when you open and close your sliding doors. Easy to fit, just simply plug and play.

**Please Note:** The lights work independently, but if you want them to automatically turn on when opening your doors then you will need a Infra-red control box.

Solo Light

Available in packs of 2 and 3

Duo Light

Available in packs of 2 and 3

Infra-red control box

**(Please Note:** You will need 1 Infra-red fitting for every light pack purchased).

# MTM Doors

## Colour panel options

Our made to measure sliding door range now has an even larger selection of panels available, making the choice even greater and even more to your style. With a mixture of core colours to choose from, we have also now introduced the most on-trend premium colours as well.

By combining these frame and panel finishes together, you can be as creative as you want. Designing your own unique style.

# Measuring Up

## for MTM Doors

### 1. How to measure up for Made to Measure Doors

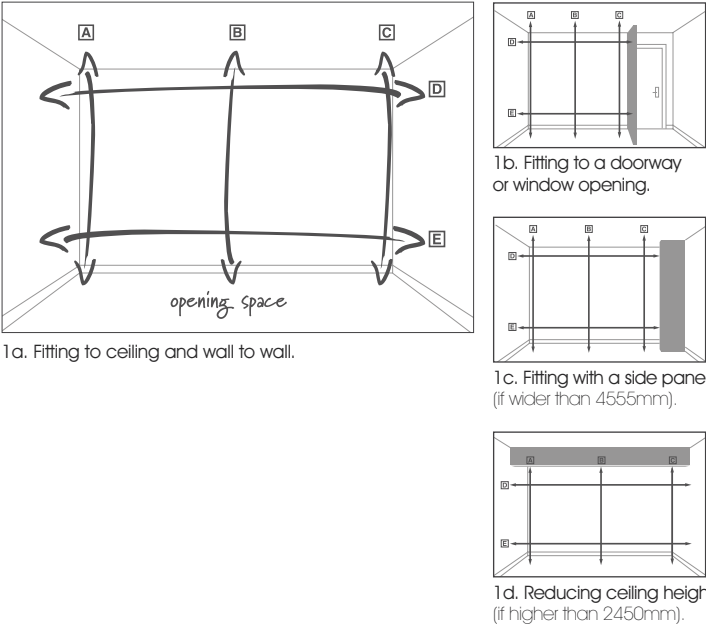

Measure your opening height and width at the five points indicated on the main diagram to the right. Do this at approx' 620mm away from the back wall of where your Sliding Doors will go to allow for your interior system.

The Minimum door width for all MTM Doors is 610mm.  
Maximum door widths are:  
1180mm for Flux, Reflex & MTM Classic  
1230mm for Glam,  
1160mm for the Shaker,

Maximum opening height of 2500mm.  
Maximum opening Width of 4555mm.

**Note:** If there is a difference between the measurements of heights A, B or C, this means that your ceiling and floor are not parallel. Your track-set will allow for a difference of up to 25mm, but if the difference exceeds this you will need to make adjustments to your ceiling or walls. (See diagrams 1b, 1c & 1d).

**NB:** Write down your measurements in mm, in boxes A - E on the order form referring to the diagrams on the right for additional help.

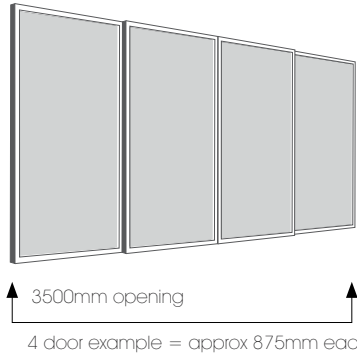

### 2. How many doors do you require

As long as your chosen door falls within the sizing dimensions in step 1, then you can have as many Doors as you like.  
(Your door measurements will vary slightly due to the amount of overlaps that will be required, but this is something we will calculate these for you, keeping this process simple).

**NB.** If you wish to use a 900mm wide drawer for your interiors, either from the Aura or Relax range, your door sizes must be wider than 930mm to allow the drawers to be opened. This also applies to any interior product which needs to be pulled out towards you.

For example:  
If your opening width is 3500mm and you would like 4 doors, each door **would approx' be 875mm wide.**

### 3. Panel combination guide for Made to Measure Doors

Create your own unique look by combining the different frame finishes with the variety of panel options, within each made to measure door style.  
(See the opposite page for the full colour range).

Single Panel

Available to: Glam, Flux & MTM Classic Doors.

Restrictions: Only a selection of colours available to Glam & Flux Doors. (See colour references opposite).

2 Panel

Available to: Glam, Reflex, Shaker & Flux Doors.

Restrictions: None

4 Panel

Available to: Glam, Reflex Shaker & Flux Doors.

Restrictions: Glam, Shaker & Flux Doors must have the same colour Top & Bottom Panels.

Maximum opening height  
of **2700mm**. Infinite width options

# Alutec

## Modular furniture system

Made for you....designed by you

This Bespoke Modular Furniture system offers endless possibilities for any room in the home. Perfect for Walk-in Closet interiors, living room display systems or just simple storage shelving. The fact that this product is totally bespoke, gives you complete control of what they are used for and how they can work best for you and your home.

Simple to build with endless combinations to fit even the most awkward spaces. These components are designed so you get the maximum functionality out of any living space.

Also introducing a soft close system for the Drawer Boxes & Trouser Racks

- Drawers and shelves available in both Linen & Walnut effect
- Aluminium Stanchions fit both floor to ceiling & floor to wall (can be cut to any height)
- Aluminium Stanchions are designed so that the brackets fit at any position
- The 2 main widths for the New Alutec system is 550 & 900mm
- All Drawers, Shelving, Matrix Units & Trouser Racks come with brackets included.
- The Drawer units & Trouser Racks come with a Soft Close feature as standard

# Alutec

## furniture system

The Alutec Stanchions come in Anodised Aluminium for added strength, available as a Floor to Ceiling or a Floor to Wall fitting. This means that if you have ceilings higher than 2700mm, then you can easily use the Floor to Wall option. Alternatively you can use the Floor to Ceiling option to create a room divider. Both can be used with one another, giving you total control and total flexibility.

(The full component range is displayed on the page overleaf).

The Alutec furniture system is easy to create as well as being versatile and practical. With the choice of both aluminium components or wood components to choose from, creating a stylish interior has never been easier or more desirable.

Whatever the space this system can easily be adapted a to suit your every need ....over and over again.

## Getting you started...

To create your ideal storage system, we have put together these 4 starter kits to give you a extra helping hand. This modular system can be configured in any way you like, but by starting with these you may find the whole process a little easier.

Kit 1. (1250-1850mm wide)  
Creating this look, you will need:

• X4 W900mm Shelves

• X2 Telescopic post

• X2 Extendable hanger bars

• X4 Shelf brackets (pack of 2).

Kit 2. (1950 - 3150mm wide)  
Creating this look, you will need:

• X2 Aura Stanchions

• X2 Telescopic hanger bar

• X4 550mm White Shelves

• X4 Shelf Brackets (pairs)

Kit 3. (2300 - 3500mm wide)  
Creating this look, you will need:

• X4 W900mm Shelves

• X1 Shoe rack

• X2 Telescopic post

• X2 Extendable hanger bars

• X2 Shelf brackets (pack of 2).

Kit 4. (3400 - 4555mm wide)  
Creating this look, you will need:

• X4 Aura Stanchions

• X2 Telescopic hanger bar

• X1 Fixed Hangerbar

• X1 Trouser Rack

• X2 900mm Shelves

• X4 550mm Shelves

• X6 Shelf Brackets (pairs)

Please Note: These examples have been created using the White components, but the exact same look can be created using the Oak wood effect as well.

## Planning and installing your Storage Systems

**Step 1: Measure up**  
Measure the Width and Height of the space available for your storage solution.

**Please Note:**  
**Aura.** Telescopic posts fixed between the floor and ceiling are used to support the shelving/drawers and have an adjustment range from **2110mm to 2700mm**.  
**Relax.** Stanchions can be cut to any height, and are available as Floor to Ceiling fixtures (**Max Height 2700mm**), or Floor to Wall fixtures (**Max Height 2440mm**).

**Step 2 Calculate components**  
By choosing different drawer and shelving sizes you can create a unit to fit any individual space, which can be adapted to suit your changing needs, whenever you want. Simply measure you opening width, then divide the space up using the chosen components.

**Step 3 Fitting your storage system**  
All components come with detailed instructions on how to install. Make sure you pick up everything you need to complete your project.

**Please Note:**  
**Aura.** Brackets are sold separately. Please remember to order the correct amount.  
**Relax.** All Fixings come with Brackets included.

For further help on installing please visit[www.hdhc.com](http://www.hdhc.com)

**Note:** Always layout your storage components including your telescopic posts/ Stanchions before fixing them, to make sure your space is correct.

Step 1.measure up

Step 2.calculating components

Step 3.Fitting your system
